IBE 85N Battery

Industrial Battery Engineering

IBE flooded lead-antimony batteries feature flag type terminals on positive and negative posts for easy connection. Heat sealed cell covers eliminate electrolyte leakage reducing corrosion build-up. A sealing compound around the edge of the case and cell reduces the problem of electrolyte corrosion at the edge of the steel case. The cell is a high-capacity industrial type for deep cycle operation - 5000 cycles @ 20% DOD. Lifting handles are provided. Eight-year limited warranty - 5-year full and 3-year prorated. Price includes standard steel case with handles. Dry charge models available. Discounts available for 3 and 6 cell cases. 3/8"-16 X 1" battery bolts sold separately
