SunWize OEM 10 Kit

## SunWize® OEM and SW Solar Module Kits

SunWize OEM and SW Solar Module kits include a solar module and the SunWize SWIL6 prewired voltage regulator with output cable. The OEM kits are also offered with a fixed tilt, 45° side-of-pole mount. Each kit is also available without the mount. The SWIL6 is mounted in the module junction box. The waterproof controller features a multi-function LED indicator and fuse protection. SunWize single crystalline, high-efficiency solar modules are manufactured to exceed industry standards providing exceptional reliability and maximum power output. A twenty-year warranty reflects the superior quality and assures long product life. The aluminum side-of-pole mounts include two clamps for nominal 2.5" through 4" poles (OD 2.875" through 4.5"). OEM 5 & 10 kits include a 5 ft. cable, the OEM 20 & 40 and the SW85 & 90 kits include a 10 ft. cable (#12 AWG).
